

Mehak Sharma

Design Leader · AI Products & Mobile Experiences

Senior Product Designer with 10+ years across AI products, consumer apps, and B2B platforms. I set design direction, mentor designers, align teams around complex product decisions, and stay close to delivery until the experience performs.

EXPERIENCE

Apr 2022 – Present

Microsoft

Senior Product Designer · Shanghai

- Set the design direction for **Copilot Summarize in Outlook Mobile**, defining its interaction model from first principles and helping the feature reach **2.3M+ iOS users**.
- Led the experience across three phases: Outlook's first mobile AI entry point, multi-turn Copilot Chat integration, and a proactive action system above the inbox.
- Built a working prototype connected to real M365 data to align stakeholders; contributed to prompt engineering, experiments, and usage analysis to improve AI output quality.
- Mentor designers and raise the quality bar through design direction and critique. Previously designed Teams Mobile search and now contributes to Outlook's reading pane and file previewer.

Jul 2019 – Apr 2022

Agoda (Booking Holdings)

Senior UX Designer · Bangkok

- Led loyalty and growth design across the customer journey, making rewards easier to understand and supporting deeper repeat engagement.
- Owned end-to-end B2B property workflows spanning onboarding, settings, rates, and their reflection in Agoda's consumer app.

2016 – 2019

SAP

UX Experience Design Specialist · Bangalore

- Designed B2B products across data privacy, project management, and warehouse management; partnered with the German team and conducted in-market research to identify product gaps.

2015 – 2016

Samsung

UX Designer · Bangalore

- Worked on the first My Galaxy app, unifying entertainment, offers, and services for Samsung device owners.
